Re: After-Action Report for Leadership Grant funded 8/18/2014

The Spaatz Association Leadership Grant provided to Wisconsin Wing was utilized to sponsor the wing's first wing-level Non-Commissioned Officer School. The school attracted 49 participants which included 37 students, seven cadet staff, and seven senior cadre.

The grant funds were used to purchase supplies that are reused in future years, and were in fact reused during the 2015 iteration of NCOS. This includes hats and gloves that comply with regulations. These supplies are important as we hold the school in November, but still drill outside. Being able to set the standard, even with outerwear, is an important capacity to have. The funding also allowed the initial year of the school to be offered at a lower cost. This lower cost was instrumental in establishing cadet buy-in.

Our wing's NCOS was replicated in 2015. Due to the interest level we also were able to add an Airman Leadership School as part of the training weekend. Both of these schools are benefitting from the durable supplies that were purchased in 2014 using The Spaatz Association grant funds.

Photos from the 2014 NCOS can be viewed online at:
